

Degree Prize for Theses on Environmental Sustainability - Second Edition

In recent decades environmental sustainability has had a profound impact on the quality of life on our planet and the study of these issues has undergone a radical transformation thanks to which the environmental dimension has been associated with the economic and social spheres with the aim of leaving future generations a better world than the one we live in today.

In order to reward the best degree theses on sustainability, Luiss Guido Carli announces a competition for the award of twenty degree prizes, for a total amount of **€ 15,000**, open to **graduates of bachelor's, master's or single-cycle master's degree programs** at Luiss Guido Carli who completed their studies in the year **2022**, obtaining their degree on track (*in corso*), with a grade not less than **105/110**.

The degree prizes are broken down as follows:

- ten prizes worth € 1,000 each to graduates of master's or single-cycle master's degree programs;
- ten prizes worth € 500 each to graduates of bachelor's degree programs.

Applications to participate in this competition must be sent no later than **noon on 31 March 2023** using the form available online at <http://www.luiss.it/studenti/agevolazioni-economiche>, accompanied by a copy of the degree thesis and abstract.

The applications will be examined by a special commission, consisting of three faculty members designated by Luiss Guido Carli, which will award the prizes at its absolute discretion.

The announcement for the second edition of this competition for theses on sustainability defended in the 2023 calendar year will be published in February 2024.
