##### Examining Commission and Selection Procedures

The Commission is appointed by the Department Council and made up of three professors in accordance with the provisions of article 6 of the Regulations.

Should a commission member be replaced during the course of the procedure, everything done up to the time of that replacement shall remain valid and effective pursuant to the principle of conservation of legal acts.

The Commission will appoint one of its number as the Chairperson and another as the Recording Secretary.

The comparative evaluation is informed by the principles of article 7 of the Regulations as supplemented and specified below.

The selected candidate must have developed research activities at the international level, as demonstrated by:

- commitment to meaningful academic research and scientific publications in high-quality international academic journals, and its continuity in time, specifically in the last 5 years;
- active participation in the international academic debate of the scientific community (participation at international conferences, guest speeches, invitations to present research work in prestigious universities);
- visiting scholarship or professorship in top schools and universities and research institutions;
- proven participation in editorial boards of leading international journals and of committees of relevant international conferences.

The selected candidate will be evaluated by taking into account teaching experiences, in Italian as well as in English, at the level of BA and MSc and post-graduate courses, and supervision of Bachelor and MSc students, in the subjects conferred with the scientific-disciplinary field in question and with teaching and research activities. The comparative evaluation of scientific production will also consider the relative relevance of the journals and editorial placements recognized in the respective scientific fields. The comparative evaluation of training or research activities at highly qualified Italian or foreign academic institutions will take into account the quality of positions held, and the relative contractual qualifications.

In addition to the candidate's academic prowess the evaluation will also take account of the linguistic skills necessary because of the University's multilingual character and the teaching needs for courses taught in foreign languages. To this end candidates might be called upon to hold a seminar on a topic of their choice, preferably in English, also in presence of students. The Commission will summon candidates for the holding of the seminar subject to giving them at least 20 calendar days' notice.

The publication of the notice of convocation to the seminar on the Luiss Guido Carli website will have the value of notification for all participants in the competition, without the obligation of any further communication. Notice of the publication may also be given to the e-mail address indicated by the candidates in the application. Luiss Guido Carli assumes no responsibility for non-receipt or non-reading of the e-mail. It will, however, be the responsibility of the candidates to keep informed by consulting the website, in the section dedicated to the competition, to find the necessary information.

In case of absence from the seminar, the participant automatically renounces the comparative evaluation.

At the end of the proceedings the Commission will come to an overall judgment on each candidate and will compile a ranking to be sent to the Department Board.

#### Article 5

##### Duration of Selection Process

The Commission will conclude its work within four months after its appointment. The Rector may extend once and by two months at most the deadline for the conclusion of the procedure for stated reasons given by the Commission Chairperson.

Taking account of the Commission's judgment, teaching needs and the profile and functions specified in the announcement, the Department Board will establish, by reasoned and favourable vote of the absolute majority of first-level professors for the recruitment of first-level professors and absolute majority of first and second level professors for

the recruitment of second-level professors, a ranking of names for submission to the Rector. On the basis of the deliberations of the Department Board, the Rector will make a proposal to the Executive Committee. The Executive Committee will decide on the recruitment. The Rector will issue a decree recruiting the professor.
